

## **SEASONAL WEIGHT LIMIT GUIDELINES**

This is not intended to ironclad law, but general rules by which the seasonal weight limits will be administered by:

The Town of La Pointe Load Limits shall be posted when the Ashland County Highway Commissioner posts County Trunk H.

There will be a general exemption for trucks hauling septage and home heating fuel. These trucks must make every effort to keep hauling to a minimum and when it is necessary to travel posted roads, drivers shall make every effort to travel at the most opportune time (i.e. – early in the morning if there is a hard frost.)

If roads appear to be particularly suspect the hauler shall haul half loads.

All other exemptions must be written permits obtained from the Town Foreman.

Town of La Pointe Seasonal Load Limits will be lifted when the County lifts their load limits.

The load limits on Mondamin Trail may be left on longer if necessary, large hauling projects may not be allowed on this road until June, or when the Road Foreman feels the base has adequately dried out.
